

Gulet

*KRILLA 7*

# ABOUT

As its name suggests, gulet Krila (eng. wings) is so fast sometimes it seems it has wings attached. Nevertheless, don't worry, as it can always slow down to allow you to fully enjoy in all the scenery. Another thing that helps with this hard work are the two wide mattresses behind the large table located on the covered rear deck. A perfect crossroad, you can lie down in the middle, jump into the sea on the side, or hop on to the table and drop some specialties in your mouth. The front deck is reserved for suntanning, reading a good book or making backflips. With great care, of course. The large red sofa calls for you as it is a great spot to be in during the sailing, with the wind in your hair providing sensational feeling and refreshment. In the air-conditioned salon you will enjoy maximum comfort. The table and the opposite bar will give you the best excuse to creep in for some cooling off, by the AC or with a drink, it doesn't matter. You can use a laptop, iPod and Wi-Fi for some catching up with your not so lucky friends back home. Six en-suite and air-conditioned cabins with double beds can accommodate 12 of you. This gulet is ideal for large groups of friends and families with children because of the high bulwark that guarantees safety for kids, and the ones that become like kids during the cruise. A kayak, scuba diving, and water skiing equipment will help during the process. Professional and always smiling crew will foresee this process guaranteeing you a wonderful time and memories for years to come.
